Subject: DOJ,

DOJ,

This case is killing our economy. Milton Friedman the Nobel winning economist stated this would happen when the lawsuit started. His projections have indeed come true. Look at the NASDAQ and specifically Microsoft's competitors.

Tell the State AG's that the DOJ will drop the lawsuit altogether unless they settle immediately. We are on the brink of a recovery and badly need a settlement.

For investors, the working class, retirees, our school systems that are short of monies, on and on... This ECONOMY, created by this lawsuit, has created major economic losses.

Please get this behind us!
